Professional Summary

Junior Full-Stack Developer experienced in building web applications using Django, DRF, React, and PostgreSQL. Proficient in REST API development, JWT authentication, database architecture, and cloud deployment. Strong background in integrating third-party services including payment gateways and media storage solutions.

Technical Skills

- **Languages:** Python, JavaScript
- **Frameworks:** Django, Django REST Framework, React.js
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, Render, Cloudinary, Razorpay
- **Concepts:** REST API Design, JWT Authentication, TF-IDF, MVC Architecture, Role-Based Access Control

Education

Mahatma Gandhi University Aug 2022 – Apr 2025
Bachelor of Computer Applications (BCA)

Experience

Python Django Full Stack (Trainee) — Luminar Technolab, Kochi May 2025 – Dec 2025

- Developed and deployed full-stack web applications using Python, Django, DRF, React, and MySQL.
- Implemented secure authentication systems (JWT, Token Auth) and optimized backend queries.
- Built CRUD modules with Django Models, Forms, and REST Serializers.
- Performed API testing using Postman and handled version control using Git/GitHub.
- Deployed web applications on cloud platforms and collaborated in Agile development cycles.

Projects

AI Resume Analyzer & Rewriter GitHub

- Built an ATS-style resume analyzer using Django and React.js to parse resumes and compare them with job descriptions.
- Implemented TF-IDF keyword matching to identify skill gaps between resumes and target job postings.
- Integrated Grok API to rewrite weak resume sections and generate improved content in real time.
- Developed PDF file upload and text extraction feature for automated resume analysis.

Social Media Web Application GitHub — Live Demo

- Built a full-stack social platform with DRF and React.js supporting post creation, likes, follows, and user profiles.
- Implemented JWT authentication with protected routes and token refresh handling on the frontend.
- Integrated Cloudinary for media uploads and deployed backend on Render and frontend on Vercel.

E-commerce Web Application GitHub

- Built a complete e-commerce platform with product listings, cart management, order tracking, and user authentication.
- Integrated Razorpay payment gateway with webhook handling for order confirmation and payment status updates.

Achievements & Certifications

HackerRank Certificates: Python (Basic), SQL (Intermediate), CSS (Basic), Problem Solving (Intermediate)
